Summary/Objective Statement:

Highly motivated and results-driven IT professional with 8 1/2 years of military experience and a strong track record of team leadership. Skilled in IT system administration, network administration, and telecommunications. Seeking to transition into a career as a Front End Web Developer, leveraging my technical expertise and passion for creating user-friendly websites that meet the unique needs of users. Committed to delivering visually appealing and highly functional websites that provide an exceptional user experience. Strong team player with excellent communication and collaboration skills. Ready to contribute my skills and creativity to drive web development projects to success.
